

# DRUM RETURNS

## AN ENVIRONMENTAL CHOICE

### HELP US MAKE THE RIGHT CHOICE

- **RETURNABLE CONTAINERS** All returnable containers are sold with RD in the product description
- **HAMCHEM** drums only
- Drums must be returned in **CLEAN, EMPTY, RINSED** and **RE-USABLE** condition
- All **CAPS, BUNGS** intact and fully tightened
- All **LABELLING** intact.
- **EMPTY** containers. Any returned product must be disposed of as waste. For the best environmental choice, use all the product including the rinse water.  
Returned product and non-returnable containers must be charged for to cover the cost of waste disposal.
- **DIRECT SUNLIGHT** Empty or full drums must not be stored in direct sunlight as the ultra violet light damages the plastic drums and can also damage your product. A faded label indicates UV light damage. Not returnable.
- **ONLY** for storage of the labelled product.
- **6 MONTHS** Drums must be returned within 6 months of purchase.
